## Amphibious Shelter (competition 2004 - 2<sup>o</sup> prize)

Boarding an amphibious shelter in wait for the Deluge. Inhabiting a sensitive device encompassed in a shifting setting, without applying constrains to the existing spot.

## Kindergarten in Boofzheim (under construction)

A kindergarten in Boofzheim as an artificial womb. Living in a temperate body which creates stable climatic conditions like in troglodytic architectures. A space liable to be opened and invaded by the environment and its energies.

## Loft in an Alsacian Barn (under construction)

A loft in an old barn as a veiled alien housed in an existing shell which would have otherwise been left to dilapidation. Inhabiting an experience-loaded, operative setting, open to diverse scenarios of appropriation.
