## Wonderland

Wonderland – a network for young architects – is back in Austria.

In Vienna the travelling exhibition will show the work of 99 teams from Austria, Slovakia, the Czech Republic, Germany, the Netherlands, France, Italy, Croatia and Slovenia. It will offer 99 European examples and answers regarding a changing architectural practice. [www.wonderland.cx](http://www.wonderland.cx)

## European Forum for Architectural Policies

The “European Forum for Architectural Policies”, which was set up in Paris in July 2000, is an intergovernmental network for cooperation between the different member states of the European Union on questions of architecture. [www.architecture-forum.net](http://www.architecture-forum.net)

## Architekturtage 2006

The Architekturtage is going into the third round: Following the success of the Architekturtage 2002 and 2004, the year 2006 will also present an exciting program for friends of architecture and inquisitive exploring spirits. Following the motto “Discover Architecture,” private houses, public buildings, headquarters and studios of architects and construction engineering consultants can be visited on the 9th and 10th of June almost around the clock. Free tours of well-known and more hidden architecture, walks through districts, presentations, exhibitions, children’s programs and parties complete the program and make architecture accessible as everyday culture to a broad public. [www.architekturtage.at](http://www.architekturtage.at)
